FISCAL NOTE ANALYSIS

**STATE OF ALASKA
2019 LEGISLATIVE SESSION****Analysis**

This legislation requires some state medical assistance program recipients be involved in work activity, but allows an exemption for individuals currently receiving unemployment insurance benefits. The Department of Health and Social Services (DHSS) may have to access unemployment insurance information to determine if an individual is exempt from the work requirements. If so, DHSS will need to cover the costs associated with accessing this data.

The Federal Unemployment Tax Act (FUTA) mandates that the unemployment insurance administrative grant may only be used for the administration of the program. 20 CFR 603 provides that any costs associated with requests for access to unemployment insurance information for purposes other than the administration of the unemployment program must be incurred by the requestor.

There is no fiscal impact to the Department of Labor and Workforce Development as a result of this legislation.
